Notes:

Landings in this report include all scup landings reported for week ending May 1, 1999, therefore some landings may be from the Winter I period. These landings will be separated into the respective quota periods at a later date and the quota report adjusted.

From May 1 through October 31, 1999, otter trawl codend mesh size must be 4 ½ inches (diamond mesh) when in possession of 100 lb or more of scup.

For week ending May 15, 1999, 168 dealers held a federal scup permit. Of those 168 dealers, 137 (82%) have submitted a weekly quota report for the current reporting week. Because Massachusetts dealers submit weekly quota reports directly to the state, they were not included in these calculations.

These data are the best available to NMFS when this report was compiled. Data are supplied to NMFS by dealers and/or state agencies and may be preliminary.
